

CHANDAN KUMAR

Gurugram, Haryana
6202521393 | chandannadhi@gmail.com

Objective

An aspiring MCA student with strong knowledge of data analysis, machine learning, and deep learning. Seeking an entry-level opportunity where I can apply Python-based analytical skills, contribute to organizational growth, and continuously enhance my technical expertise.

Experience

Academic Projects & Practical Learning –

- Worked on data analysis and machine learning concepts using Python
- Applied exploratory data analysis and visualization techniques on datasets
- Gained hands-on experience in deep learning and computer vision through academic projects

Education

Roorkee Institute of Technology

Master of Computer Applications (MCA)

2026

VELS University

Bachelor of Computer Applications (Data Science)

2024

Sanjay Gandhi Mahavidyalaya

Higher Secondary Certificate

2020

Utkaramit Madhyamik Vidyalaya

Secondary School Certificate

2018

Skills

Programming Languages – Python, SQL

Machine Learning – Regression, Classification, Clustering, Decision Tree, Random Forest

Deep Learning – Neural Networks, Convolutional Neural Networks (CNN)

Libraries & Frameworks – TensorFlow, Keras, Scikit-Learn, OpenCV

Data Analysis & Visualization – Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA)

Tools / Platform – Jupyter Notebook

Projects

Brain Tumor Detection Tool Using Deep Learning

- Developed a brain tumor detection system using CNN-based deep learning techniques
- Utilized a pre-trained deep learning model for MRI image classification
- Performed basic image preprocessing and model evaluation

Tools used: Python, TensorFlow, Keras, OpenCV

Soft Skills

- Good communication skills
- Adaptable to different work environments
- Strong time management abilities
- Team collaboration and problem-solving skills
